CONTRIBUTIONS

NUMBER 1

Editorial: **If Peace Breaks Out**	Dr Anthony R. Michaelis	1
Comment: **Bridges: An Interdisciplinary Column**	Lisa Heinz	6
Comment: **Interdisciplinary Research Centres**	Emeritus Professor David Tabor, FRS	9
Comment: **Interdisciplinary Research Is Needed**	Professor E. Creutz	10
Comment: **The Universality of Science and International Cooperation**	Professor Dr Carlo Rubbia	12
Comment: **Ocean Sensing**	Sir Hermann Bondi, KCB, FRS	16
Comment: **Disaster Relief Brigade Needed**	Dr Larkin Kerwin	18
Biocompatibility: Performance in the Surgical Reconstruction of Man	Professor D. F. Williams	20
Makhtesh Ramon: Interdisciplinary Laboratory of Nature	Professor Emanuel Mazor	34
Migration of Physical Scientists to Molecular Biology and Its Impact	Dr S. B. Dev	45
Towards a Global Agricultural System	Professors Vernon W. Ruttan and Harald von Witzke	57
Designing a Combat Aeroplane: Interdisciplinary Aspects	B. R. A. Burns, C Eng, FRAeS	64
Meteorology in Turner's Paintings	Dr Ursula Seibold	77
Cinchona and Quinine: A Remarkable Anniversary	Emeritus Professor L. J. Bruce-Chwatt, CMG	87
Book Reviews		
A Cave of Treasures	Lord Ashby, FRS	94
The Philosophical Thought of Wolfgang Pauli	Professor Sir W. H. McCrea, FRS	95

NUMBER 2

Editorial: **Drugs – Religion's Chemical Surrogates**	Dr Anthony R. Michaelis	97
Comment: **Bridges – Nanotechnology and Collaboratories**	Lisa Heinz	105
Comment: **How Much Scientific Fraud is There?**	Basil Walby	108
Comment: **Global AIDS in the 1990s**	Dr Jonathan Mann, MD, MPH	110
Comment: **The Scientist and the Fourth Dimension**	Dr Basil Bard	113
Achieving Effective Government in the United States	Alan L. Dean	115
The Reductionist Imperative and the Nature of Humanity: Questions in Political Biology	Professor S. A. Barnett	119
Near-Infrared Reflectance Spectroscopy and Authenticity of Performance: Indications in Bach's Music Manuscripts	Dr Rainer Kaiser and Professor Dr Dieter M. Kolb	133
Han Gastronomy – Chinese Cuisine *in statu nascendi*	Dr H. T. Huang	139

The Impact of Society on Technology: From Bridges to Large Enclosed Spaces	Professor Henry Petroski	153
World Agriculture: Urgent Policy Changes Needed	Dennis T. Avery	160
Leaf Protein: Production and Use	N. W. Pirie, FRS	168
The World Coin: Matthew Boulton and His Industrialisation of Coinage	Dr Richard G. Doty	177
Correspondence	Professor T. S. K. Johansson	187
Book Reviews		
American History of Technology	Dr Trevor I. Williams	188
Ultrasound	Dr G. A. D. Briggs	190
Marine Astrolabes	Professor G. L'E. Turner	191
Economic Development	Professor Paul Streeten	192

NUMBER 3

Editorial: **Brain Drain and Brain Gain**	Dr Anthony R. Michaelis	193
Comment: **Bridges – A Digital Library**	Lisa Heinz	196
Comment: **Science, Culture and Consciousness**	Dr Karan Singh	198
Comment: **Macro-Engineering: Past and Future**	Professor Frank P. Davison	200
Comment: **Computers and Antiquity**	Doron Swade	203
Comment: **Leibniz – Founder of Scientific Academies**	Professor Dr Wilhelm Totok	207
Human Ecology in India: Some Historical Perspectives	Professor Madhav Gadgil and Professor Romila Thapar	209
Non-Euclidean Kaleidoscopes	Dr Caroline Series	224
The Technology of Submarine Design: A Historical Survey 1905–1945	D. K. Brown, RCNC	235
Supercomputer Chemistry: Structure, Dynamics, and Biochemical Applications	Professors Jan Almlöf, Donald G. Truhlar, and Terry P. Lybrand	252
Insects and Their Water Requirements	Dr John Noble-Nesbitt	264
Book Reviews		
Biotechnologies and Developments	Dr M. S. Swaminathan, FRS	283
Classic Science Writings	Lord Ashby, FRS	284
Planning Pollution Prevention	Lord Ashby, FRS	285
Science and Medicine in the Art of the Early Renaissance	Professor Dr Heinrich Schipperges	286
To See the Elephant	Sir John Cornforth, CBE, FRS	286
The Origin of the Solar System	Professor Charles P. Sonett	287

NUMBER 4

Editorial: **Europe: East and West**	Dr Anthony R. Michaelis	289
Comment: **Women in Science during Antiquity and the Middle Ages**	Dr Caroline L. Herzenberg	294
Comment: **Joseph Needham: A Personal Impression**	W. Brian Harland	298

China and Europe: Their Different Progress in Science	Dr Joseph Needham, FBA, FRS and Colin A. Ronan, FRAS	301
Scientists and Politicians	Sir Hermann Bondi, KCB, FRS	310
The Discovery of Uranium Fission: Its Intricate History and Far-Reaching Consequences	Professor Dr Peter Brix	314
The Advantage of Preconceived Ideas	Professor Dr Ernst Pöppel	327
Deceit in Science: Does It Really Matter?	Emeritus Professor Arthur J. Birch, AC, CMG, FAA, FRS	334
Chaos and Order – The Complex Structure of the Living: An Extract: Two Dialogues	Professor Dr Friedrich Cramer	344
Codemakers versus Codebreakers	Professor Fred C. Piper, C. Eng., FIEE	349
The Role of Motivation in Scientific Research II: A View of Creativity	Dr Jerome Karle	357
From *Flatland* to Hypergraphics: Interacting with Higher Dimensions	Professor Thomas F. Banchoff	364
Men of Science in Westminster Abbey	Dr John Physick, CBE, FSA	373
Book Reviews		
Borodin – Chemist and Musician	Dr Joan Mason	381
Animals and People	Professor S. A. Barnett	382
Perfumery	Dr J. Stephan Jellinek	382
History of Chemistry	Dr Anthony R. Michaelis	383
The Task of Medicine	Professor Charles E. Engel	383
The Formation of Knowledge through the Actions of Scientists	Lisa Heinz and Daryl E. Chubin	384
Index		385
